Forward Looking Statements

This presentation contains forward-looking statements. The use of the words “anticipate”, “continue”, “estimate”, “expect”, “will”, “project”, “should”, “believe”, “intend” and similar expressions identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. Management believes the expectations reflected in those forward-looking statements are reasonable but cannot give any assurance these expectations will prove to be correct. Additional information on risk factors that could affect Black Diamond's operations and financial results are included in Black Diamond's annual information form for the year ended December 31, 2021 and other reports on file with the Canadian Securities Regulatory Authorities which can be accessed on SEDAR. Readers are cautioned not to place undue reliance on these forward-looking statements. Furthermore, the forward-looking statements contained in this presentation are made as at the date of this presentation and Black Diamond does not undertake any obligation to update or revise any of the forward-looking statements, except as may be required by applicable securities laws.

Black Diamond Group rents and sells modular space and workforce accommodation solutions to customers in Canada, the United States and Australia. We serve diverse sectors including construction, education, engineering, resources, financial institutions, military, and government.

Revenue Diversity

Source data: Q2 2022 Financial Statements, Management, Discussion and Analysis

Black Diamond Group - Who We Are

Specialty rentals and industrial services provider organized into two business units

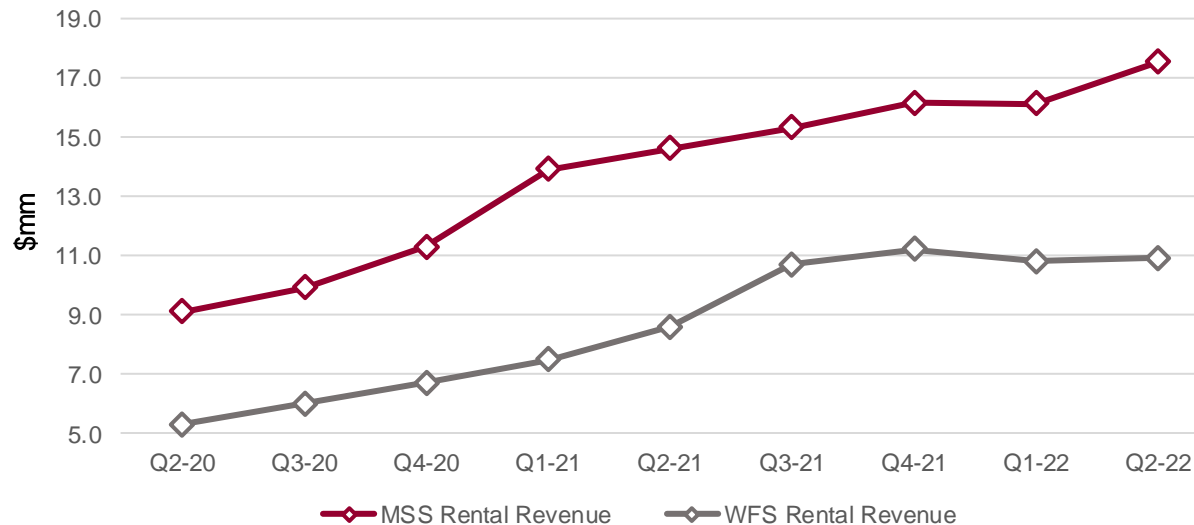

MSS: Modular Space Solutions

- Diversified rental stream through rental of modular buildings in Canada and U.S.
- Ancillary, Value Added Products & Services (VAPS) - furniture rentals
- Custom sales of modular buildings (manufactured by third party partners)

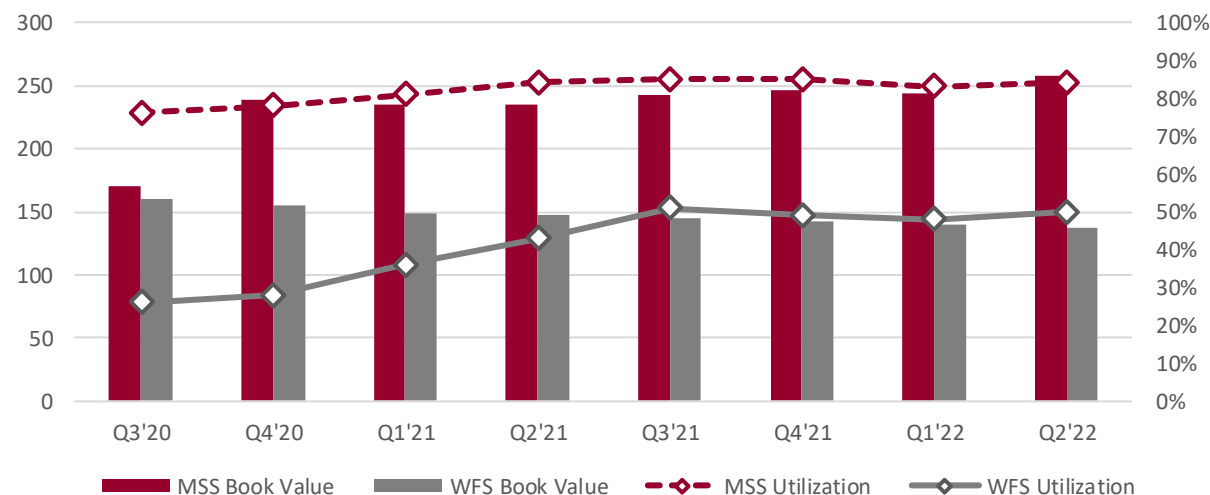

WFS: Workforce Solutions

- Rental of small and large format accommodations in Canada, Australia, U.S. with ancillary services
- Turnkey lodge services
- LodgeLink – digital platform servicing crew travel

Consolidated Rental Revenue

Rental Fleet NBV and Utilization

MSS Overview

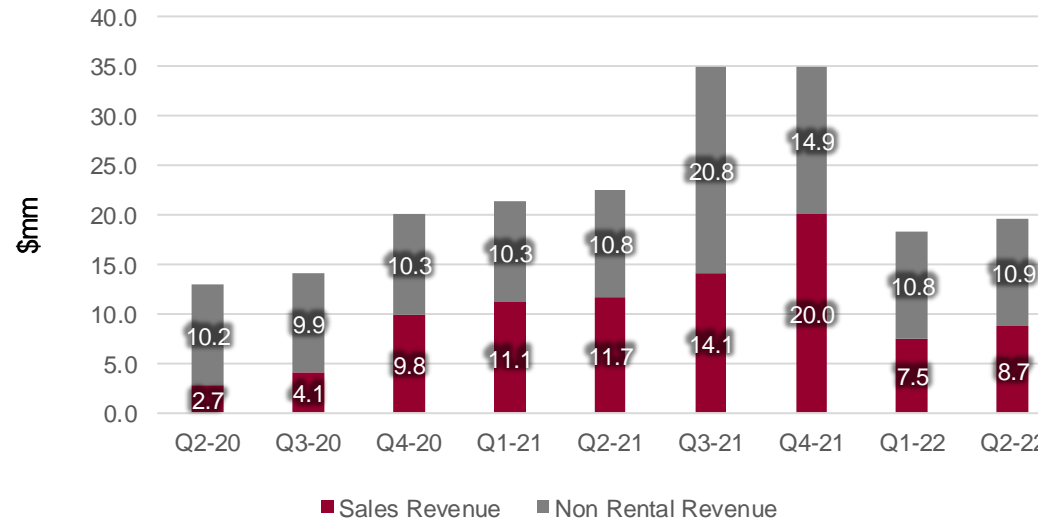

Our MSS business rents and sells temporary permanent modular buildings.

MSS Rental Revenue

MSS Sales & Non Rental

- 9,191 units across 19 branches in North America with attractive returns on long-lived assets
- With added scale and additional product offering, return metrics are improving. Rental revenue growth expected to outpace fleet growth
- Y/Y, rental rates have increased by an average of 11% across the fleet (on a constant currency basis)
- Q2/22 Rental revenue up 20% Y/Y
- Strengthening rental revenue driven by continued capital investment, higher rates, improving utilization, and VAPS penetration. Expect continued strength in rental revenue
- Sales revenue was down in Q2 primarily due to decreased custom sales as a result of manufacturing and customer permitting delays

WFS Overview

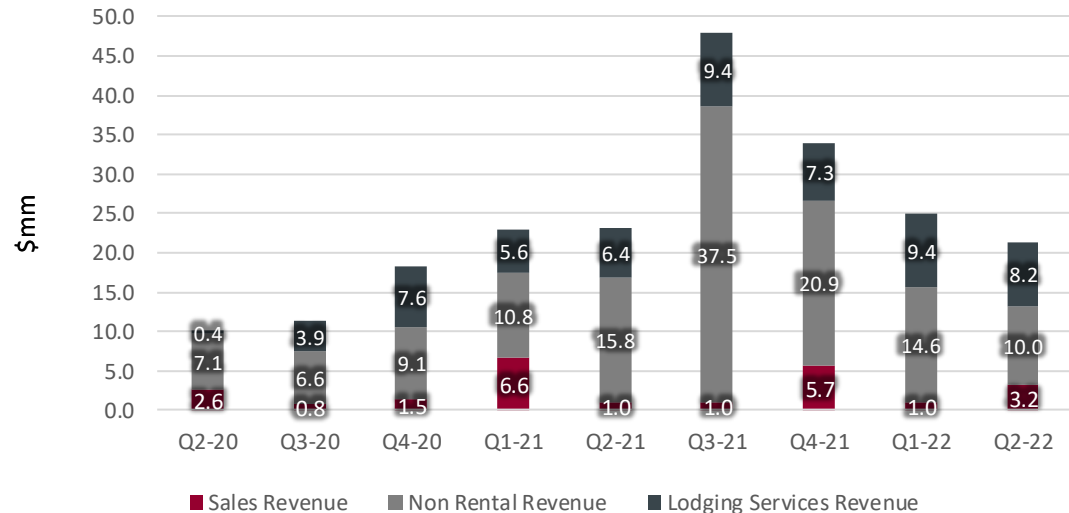

Our WFS business provides remote accommodation and related services for diverse clientele throughout Canada, the United States and Australia.

WFS Rental Revenue

WFS Lodging, Sales & Non Rental

- Includes large and small format accommodation rentals, ancillary surface rentals and services across Canada, U.S. and Australia.
- LodgeLink, the Company's digital travel platform is also within the WFS segment
- **Geographic Diversification**
 - U.S.
 - Eastern Canada
 - Continued growth in Australia
- **Industry Diversification**
 - Disaster Relief
 - Homeless Initiatives
 - Mining
 - Green Energy
- Constructive outlook for remainder of 2022 based on contracted rental revenue in place, recent growth in eastern Canada, and improving field-level activity from energy customers.
- Expecting normalized levels of non-rental revenue throughout 2022 and relative strength in Lodging Services Revenue.

LodgeLink Gaining Market Traction

LodgeLink leverages Black Diamond's extensive knowledge of remote workforce travel and logistics to support businesses with their end-to-end crew travel management.

Multi-sided B2B Platform focused on crew travel

- Efficiently connect the supply/demand of room and accommodation bookings for companies employing field crews
- Custom-built platform to remove inefficiency at every stage of the crew travel process

\$320 billion market opportunity

- Customers exist in diverse industries and geographies and share the same challenges
- No global leader in the space
- Fragmented market with low-tech tools used by customers and competitors

Over 658,000 room nights booked to date (Jun 30, 2022)

- LodgeLink room bookings grew 58% to 68,412 from Q2 2021
- Continued customer and geographic expansion with a growing presence in the U.S.

Customers & Suppliers validating all aspects of long-term vision

- Meaningful customer growth
- Both sides of the platform showing a desire to integrate their operations with LodgeLink to remove inefficiencies and enhance the experience

Over 7,300 properties listed and almost 700,000 rooms available for booking across North America

Total Unique Customer Accounts

Properties Listed

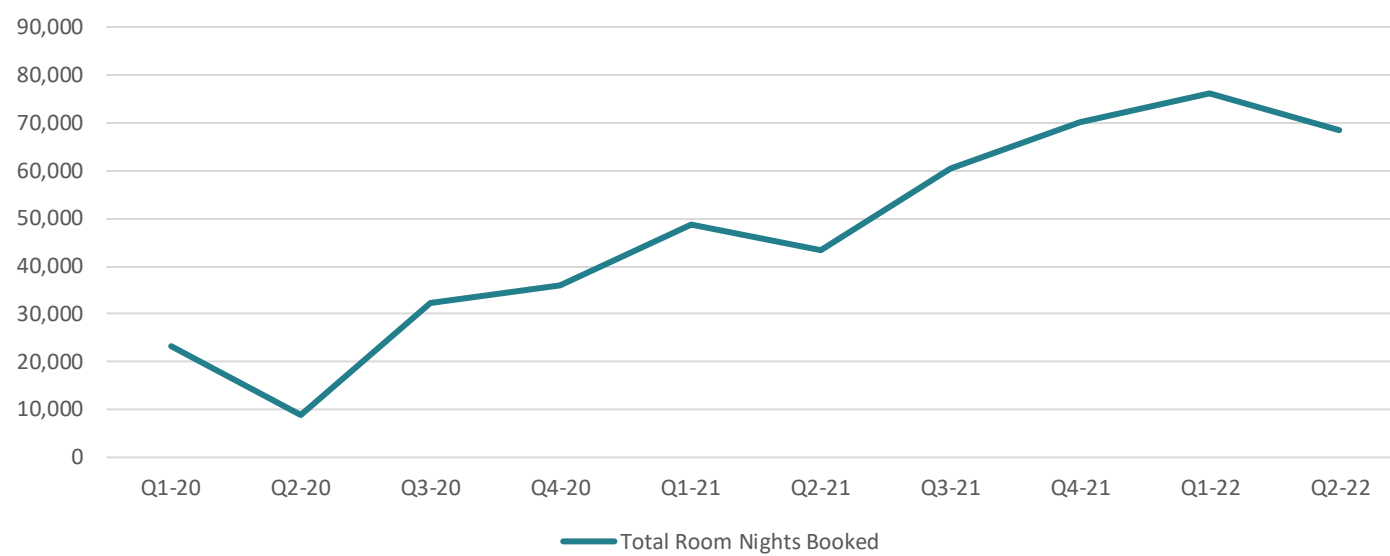

As of Jun 30, 2022

Total Properties Listed	8,323
Total Rooms Listed	759,193
Total Unique Customers	665
Employees (Permanent full time)	66

LodgeLink - Room Nights Booked & Net Revenue

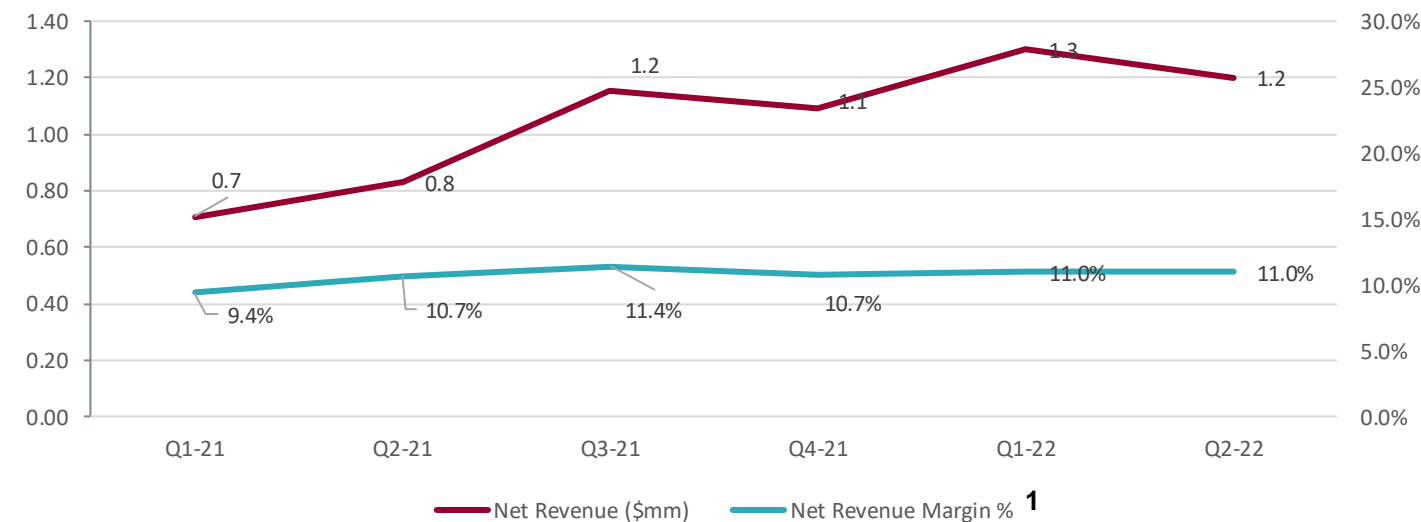

Total Room Nights Booked

- Continued growth in unique customer accounts
- Growing share of travel wallet within existing customer base
- Strong momentum into 2022 with strong booking volumes experienced over first two months of the year.

Net Revenue (\$mm)

1. Net Revenue Margin is a non-GAAP financial ratio. Refer to the Non-GAAP & Supplementary Measures section for more information

Significant Asset Coverage Against Debt

- Q2/2022 Net Debt¹ of \$157.5 mm and Long-Term Debt of \$163.9 remains well below hard asset coverage on a net book value and third-party appraisal basis
- Asset Based Lending (“ABL”) facility extended out to fall of 2026. Average cost of debt in Q2/22 was 2.85%.
- Roughly \$111 million of available liquidity

Net Debt Vs Net Book Value
of Fleet Assets

1. Net Debt is a non-GAAP financial measure. Refer to the Non-GAAP & Supplementary Measures section for more information

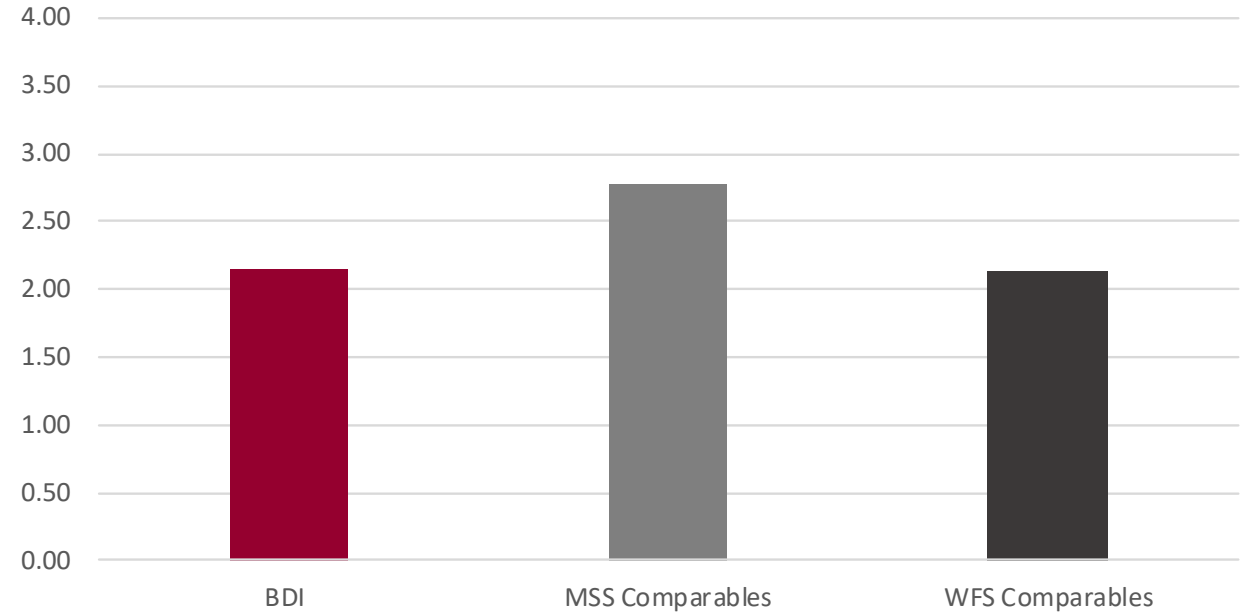

Leverage Ratio

*BDI Pro Forma Vanguard includes trailing 12 months of EBITDA from Vanguard

¹ Net Debt/EBITDA (TTM as at last reported Quarter)

Source: Factset

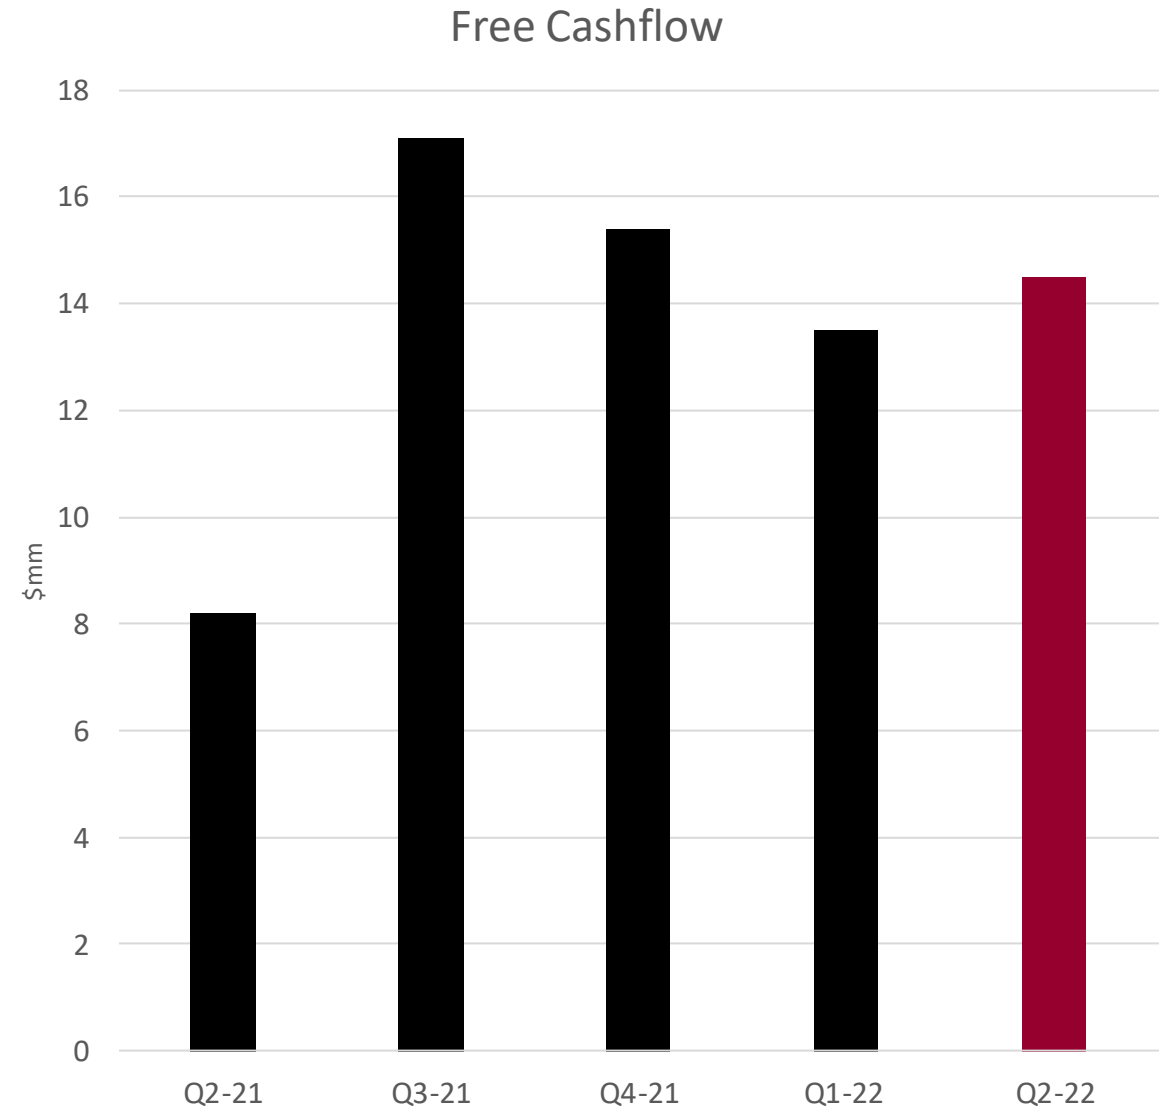

MSS Comparables: MGRC, WSC
WFS Comparables: CVEO, TH, DXT

1. Net Debt/EBITDA is defined as Net Debt to TTM Adjusted Leverage EBITDA and is a non-GAAP financial ratio. Refer to the Non-GAAP & Supplementary Measures section for more information

Strong Free Cash Flow Generation

- Asset rental model has continued to provide a strong base of Free Cash Flow¹, generating over \$14.5 million in Q2/2022 and Cash flow from operating Activities of \$24.0 million
- The company announced a quarterly dividend of \$0.015 per share, or \$0.06 per share on an annualized basis last quarter
- Base of diversified asset rentals represents an attractive hedge in the current inflationary environment

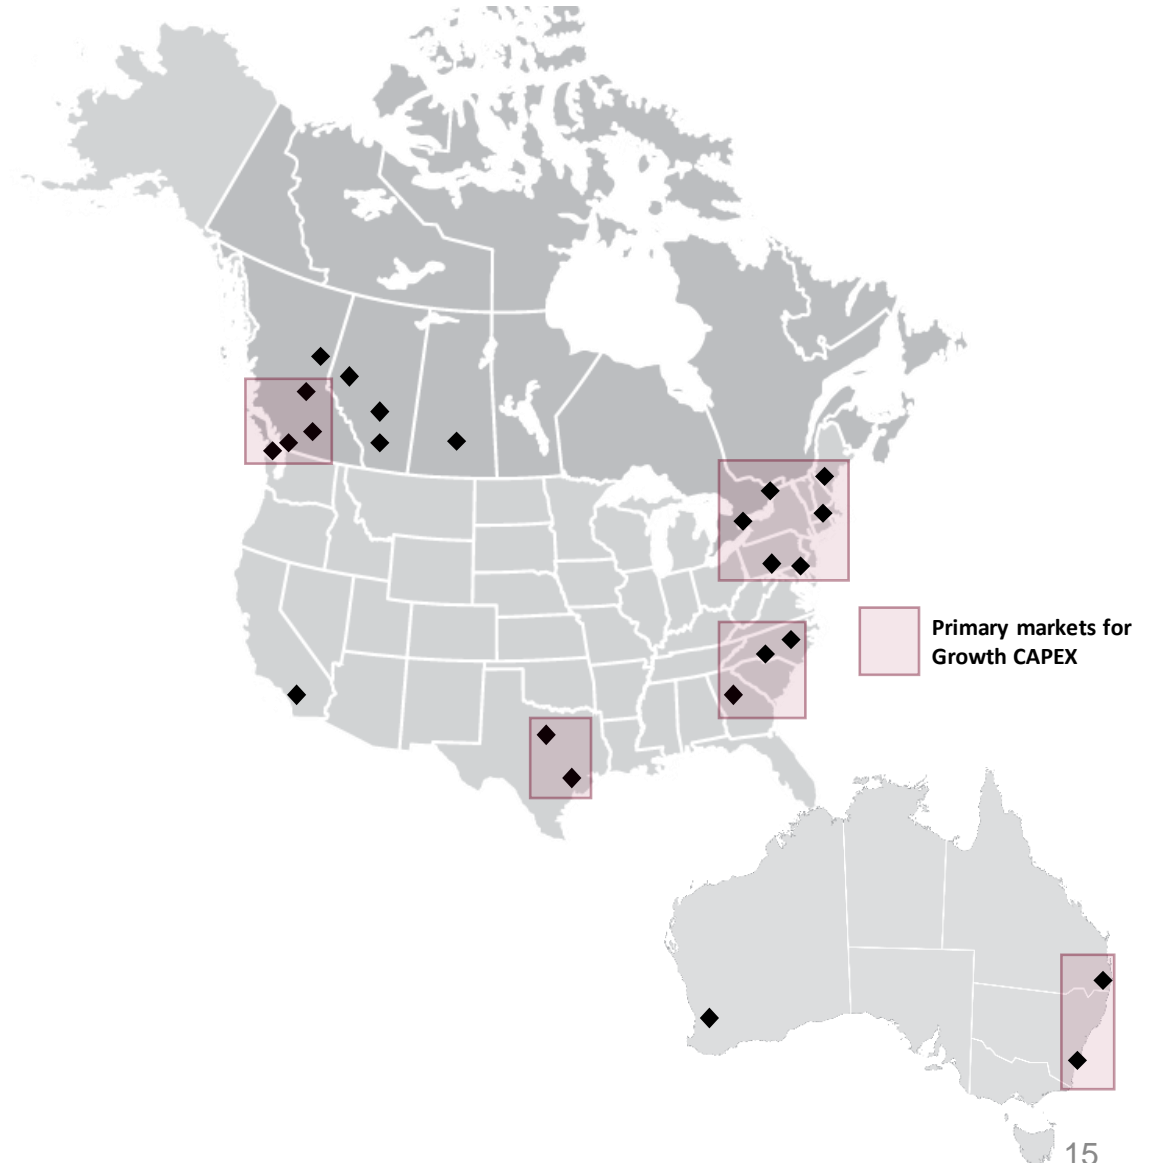

1. Free Cashflow is a non-GAAP financial measure. Refer to the Non-GAAP & Supplementary Measures section for more information

Growth Through Disciplined Capex

Organic Growth Capex

- Annual organic growth capex of ~\$35 to \$45 mm
- Realizing strong returns for new capital investment. Reported consolidated ROA¹ of 17% in Q2/2022
- Vast majority of capex targeted for organic growth in MSS with opportunities in WFS Australia and select refurb opportunities across WFS North America

1. ROA is a non-GAAP financial ratio. Refer to the Non-GAAP & Supplementary Measures section for more information

Growth

- MSS fleet growth driven by ongoing organic expansion and acquisitions
- MSS EBITDA growth to outpace fleet growth driven by increasing rental revenue as a result of rising rates, strong utilization, economies of scale, VAPS and other service offerings
- LodgeLink platform is scaling quickly and is tracking in-line with the “rule of 40”

Diversification

- Growing revenue base from U.S., Eastern Canada, and Australian markets in both MSS and WFS product offerings
- LodgeLink digital marketplace continuing to expand in the U.S.

Value

- Continuing to capitalize on significant operating leverage in underutilized Western Canadian WFS asset base as utilization improves
- Asset Based Lending facility provides flexible, low-cost debt to fund growth with considerable available liquidity
- Approximately \$400 mm of high quality, long-lived assets on the balance sheet

Adjusted EBITDA¹ Detail By Quarter

Quarterly EBITDA Detail

1. Adjusted EBITDA is a non-GAAP financial measure. Refer to the Non-GAAP & Supplementary Measures section for more information

Revenue Detail by Quarter

Consolidated Revenue by Quarter

- MSS rental fleet maintaining utilization above 80%
- WFS improvement in utilization supported by diversification of assets outside of western Canada

MSS and WFS Rental Utilization

MSS & WFS Fleet Overview

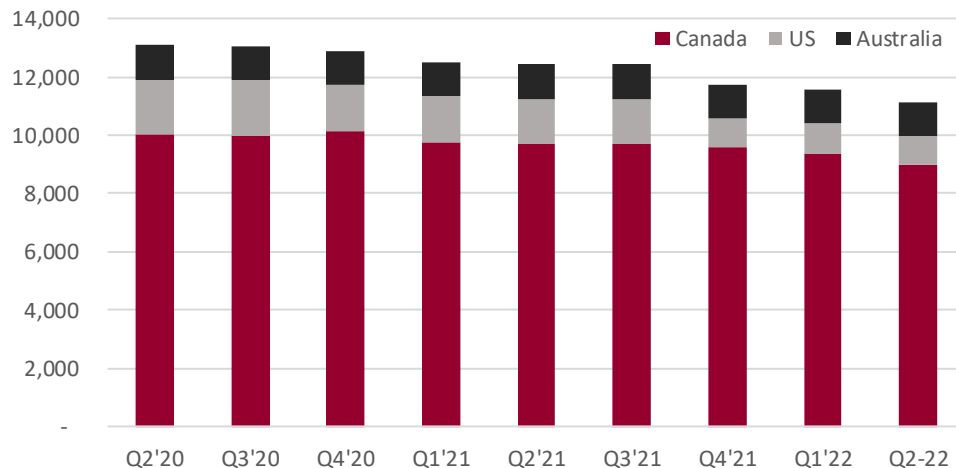

MSS Fleet Unit Count

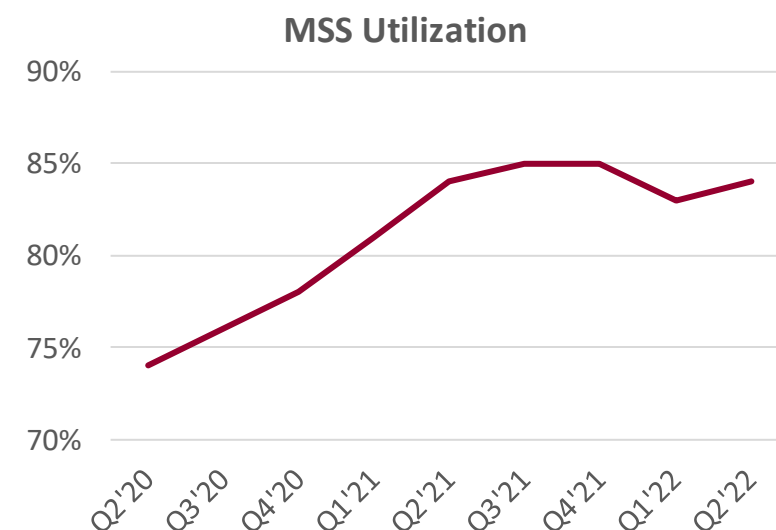

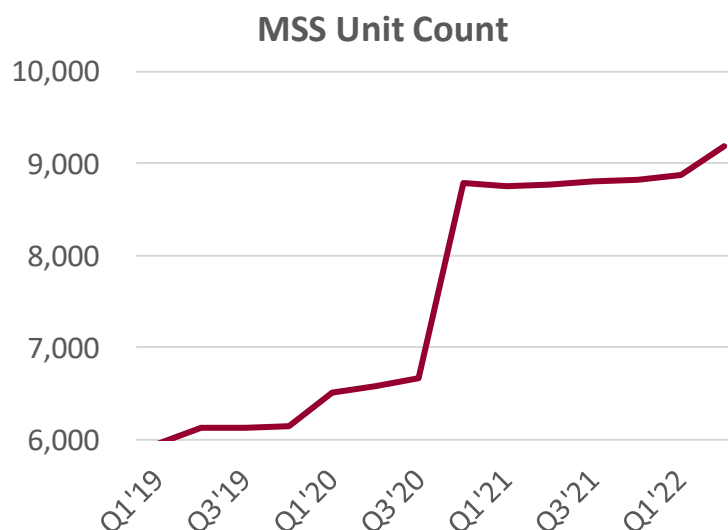

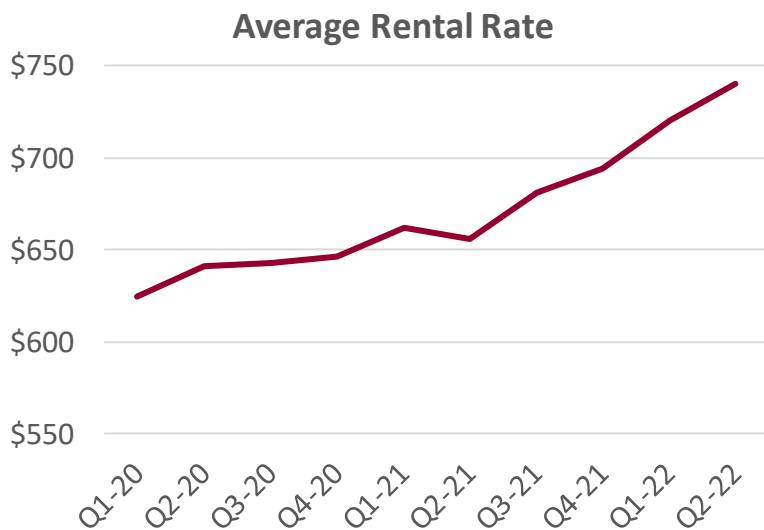

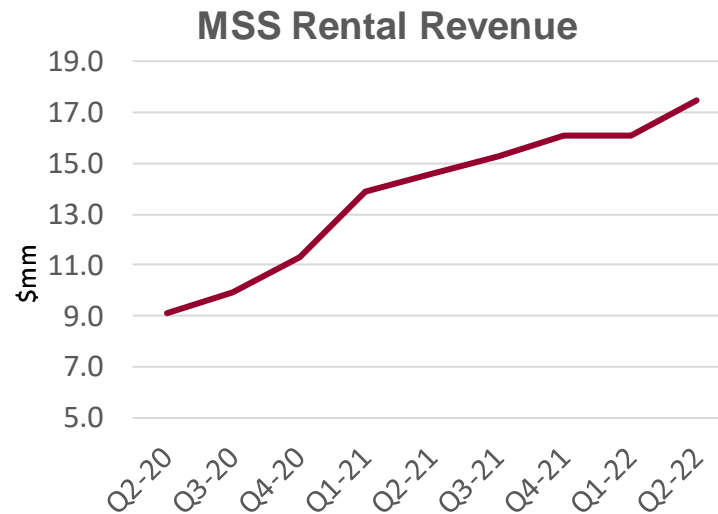

- Continued growth in MSS rental fleet, supported by organic investment and acquisitions

WFS Room Count

- WFS camps rental fleet has seen some assets move to the U.S for contracted work. Moderate decline in rooms as older assets have been sold

MSS – Drivers Behind Rental Revenue Growth

MSS – VAPS Penetration

- Value Added Products & Services (VAPS) revenue continuing to grow in line with rental revenues
- VAPS as a % of rental is down from 2020 due to an acquisition of units with little or no VAPS contribution

VAPS as a % of Rental Revenue Excluding VAPS

VAPS Revenue

Crew (workforce) travel is a complex task that adds costs to running a business

- When groups or crews are required to travel for work, finding, booking and managing travel and accommodations is challenging
- Solutions for consumer travel exist, however, they ignore the added complexity for group travel

Search, Book & Manage

- Search for accommodations close to a worksite by searching the location, coordinates, city name and more
- LodgeLink can facilitate booking accommodations for 1-100+ people in a few clicks
- Manage reservations for crews including changing schedules, project delays, extensions, etc. from the LodgeLink dashboard

Pay & Report

- All accommodations will be secured and paid by LodgeLink with a consolidated invoice sent regularly
- LodgeLink allows for cost tracking by crew, project or as required by our customers
- Additional cost and personnel tracking available to our clients

LodgeLink addresses many of the problems faced by companies needing to book crew travel accommodations and the crew members themselves

Company Perspective

- Booking and managing travel and accommodations adds unnecessary cost / administrative burden
- Lack of single-point interface often results in over- or under-booking rooms, paying for scheduling mix-ups
- Lack of corporate buying power when travel accommodation booked ad-hoc

Crew Member Perspective

- Managing bookings and payment by crew members in addition to regular duties and 10-14 hour workdays
- Burden of paying and expensing travel and accommodations

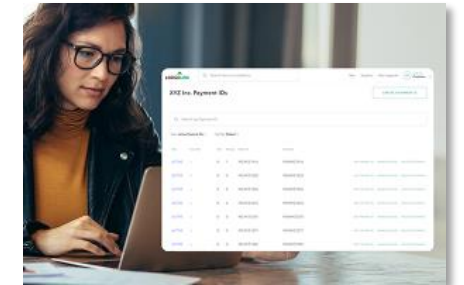

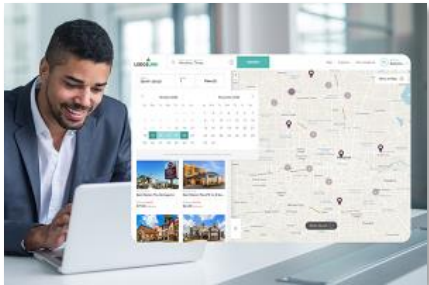

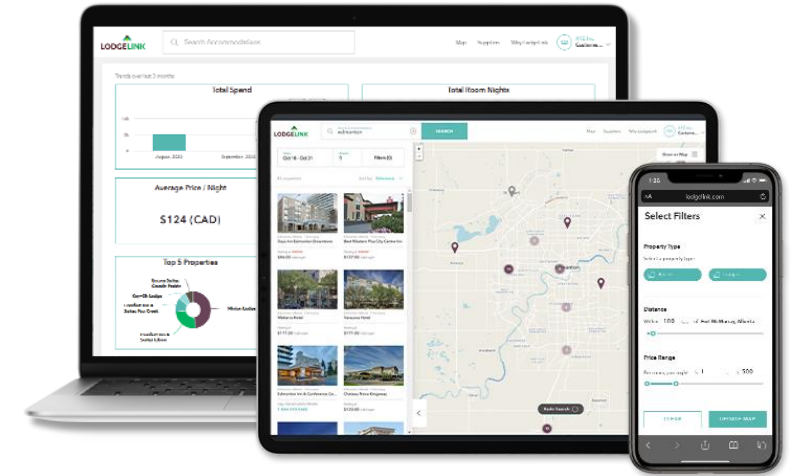

Property Owner Perspective

- Crews are a highly desirable customer base for property owners given steady volume, longer-term length of stay and diversification from corporate and leisure customers

Save time. Control costs.

- **A web-based solution for workforce travel management**
 - *LodgeLink is an end-to-end solution focused on the needs of crews*
 - *The platform applies web-based technology that simplifies the crew travel process*
- **Delivering efficiency and cost control for complex workforce travel**
 - *Through LodgeLink, administrative costs for customers are reduced*
 - *Time consuming activities are replaced with efficient web-based technology*

Current

Margin On Transactions

- LodgeLink profits on the spread between buy and sell price for rooms/flights
- LodgeLink does not take any inventory or speculation risk
- Leverage economies of scale to drive buying discounts and increase margins

Future

Advertising

- Advertise travel support services (dining and entertainment, remote refueling stations, equipment rental, etc.)
- Preferred placement in search results, similar and feature properties
- Last-minute deals to crews working in the area

Future

Data & Other Services

- SAAS Application - Potential for enhanced features, data & reporting through a licensing fee model

Cost Savings Calculator

Gain insight into how much you can save by partnering with LodgeLink using the calculator below.

Annual accommodation spend **\$510,000**

How many hours does your team spend per week creating and managing travel bookings? **10**

How many properties do you utilize in a week? **7**

Number of hotel invoices reconciled each week **30**

Use negotiated rates?

Yes No

Mode of payment

Credit Card Direct Billing

Total Costs

Annual accommodation administrative costs	\$249,500.00
Annual accommodation spend	+ \$510,000.00
	= \$759,500.00

Estimated Savings

Administrative savings	\$216,080.00
Negotiated rate savings	+ \$25,500.00
Savings with LodgeLink	= \$241,580.00 (31.81%)

Assumptions:

- Approximately 4,700 room nights @ \$108/night
- 3 rooms per transaction
- results in 1,560 transactions per year (or 30 per week)
- Assumes no additional savings on negotiated rates or direct billing

Non-GAAP & Supplementary Financial Measures

- **Adjusted EBITDA** is a non-GAAP financial measure, is not a measure recognized under IFRS and does not have standardized meanings prescribed by IFRS. Adjusted EBITDA refers to consolidated earnings before finance costs, tax expense, depreciation, amortization, accretion, foreign exchange, stock-based compensation, acquisition costs, non-controlling interests, share of gains or losses of an associate, write-down of property and equipment, impairment, restructuring costs, and gains or losses on the sale of non-fleet assets in the normal course of business. Black Diamond uses Adjusted EBITDA primarily as a measure of operating performance. Management believes that operating performance, as determined by Adjusted EBITDA, is meaningful because it presents the performance of the Company's operations on a basis which excludes the impact of certain non-cash items as well as how the operations have been financed. In addition, management presents Adjusted EBITDA because it considers it to be an important supplemental measure of the Company's performance and believes this measure is frequently used by securities analysts, investors and other interested parties in the evaluation of companies in industries with similar capital structures. Adjusted EBITDA has limitations as an analytical tool, and readers should not consider this item in isolation, or as a substitute for an analysis of the Company's results as reported under IFRS. Some of the limitations of Adjusted EBITDA are:
 - Adjusted EBITDA excludes certain income tax payments and recoveries that may represent a reduction or increase in cash available to the Company;
 - Adjusted EBITDA does not reflect the Company's cash expenditures, or future requirements, for capital expenditures or contractual commitments;
 - Adjusted EBITDA does not reflect changes in, or cash requirements for, the Company's working capital needs;
 - Adjusted EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest payments on the Company's debt;
 - depreciation and amortization are non-cash charges, thus the assets being depreciated and amortized will often have to be replaced in the future and Adjusted EBITDA does not reflect any cash requirements for such replacements;
 - and other companies in the industry may calculate Adjusted EBITDA differently than the Company does, limiting its usefulness as a comparative measure.

Because of these limitations, Adjusted EBITDA should not be considered as a measure of discretionary cash available to invest in the growth of the Company's business. The Company compensates for these limitations by relying primarily on the Company's IFRS results and using Adjusted EBITDA only on a supplementary basis. A reconciliation to profit (loss), the most comparable GAAP measure, is provided in the following pages.

- **Adjusted EBITDA as a % of Revenue** is calculated by dividing Adjusted EBITDA by total revenue for the period.
- **Adjusted EBIT** is Adjusted EBITDA less depreciation and amortization.
- **Free Cashflow ("FCF")** is calculated as Funds from Operations minus maintenance capital, net interest paid (including lease interest), payment of lease liabilities, net current income tax expense (recovery), distributions declared to noncontrolling interest and dividends paid on common shares and on preferred shares, plus net current income taxes received (paid). Management believes that FCF is a useful measure as it provides an indication of the funds generated by the operations before working capital adjustments and other items noted above. Management believes this metric is frequently used by securities analysts, investors and other interested parties in the evaluation of companies in industries with similar capital structures.
- **Funds from Operations** is calculated as the cash flow from operating activities, the most comparable GAAP measure, excluding the changes in non-cash working capital. Management believes that Funds from Operations is a useful measure as it provides an indication of the funds generated by the operations before working capital adjustments. Changes in long-term accounts receivables and non-cash working capital items have been excluded as such changes are financed using the operating line of Black Diamond's credit facilities. A reconciliation to cash flow from operating activities, the most comparable GAAP measure, is provided below.
- **Net Debt to TTM Adjusted Leverage EBITDA** is a non-GAAP financial ratio which is calculated as Net Debt divided by trailing twelve months Adjusted EBITDA. **Net Debt**, a non-GAAP financial measure, is calculated as long-term debt minus cash and cash equivalents. A reconciliation to long-term debt, the most comparable GAAP measure, is provided below. Net Debt and Net Debt to TTM Adjusted Leverage EBITDA removes cash and cash equivalents from the Company's debt balance. Black Diamond uses these ratios primarily as a measure of operating performance. Management believes these ratios are important supplemental measures of the Company's performance and believes these measures are frequently used by securities analysts, investors and other interested parties in the evaluation of companies in industries with similar capital structures.
- **Return on Assets ("ROA")** is calculated as annualized Adjusted EBITDA divided by average net book value of Property and Equipment. Annualized Adjusted EBITDA is calculated by multiplying Adjusted EBITDA for the Quarter and Comparative Quarter by an annualized multiplier. Management believes that ROA is a useful financial measure for investors in evaluating operating performance for the periods presented. When read in conjunction with our profit (loss) and property and equipment, two GAAP measures, it provides investors with a useful tool to evaluate Black Diamonds ongoing operations and management of assets from period-to-period.

Non-GAAP & Supplementary Financial Measures

- **Net Revenue Margin** is calculated by dividing net revenue by Gross Bookings for the period. Management believes this ratio is an important supplemental measure of LodgeLink's performance and profitability and believes this ratio is frequently used by interested parties in the evaluation of companies in industries with similar forms revenue generation where companies act as agents in transactions.
- **Enterprise Value ("FCF")** is calculated as *Market Capitalization plus Net Debt* which is a supplementary financial measure and is calculated as *long-term debt minus cash and cash equivalents*. A reconciliation to long-term debt, the most comparable GAAP measure, is provided in the Company's MD&A.
- **Gross Bookings** is total revenue billed to the customer which includes all fees and charges. Net revenue, a GAAP measure, is Gross Bookings less costs paid to suppliers.
- **Working Capital** is a supplementary financial measure and is calculated as current assets minus current liabilities.

For further information and discussion on Non-GAAP financial measures, as well as a reconciliation to the most comparable GAAP measure, please refer to the Company's Management Discussion and Analysis for the year ended December 31, 2021 which is available on the Company's website at www.blackdiamondgroup.com, or on the SEDAR website at www.sedar.com.
