

SMARTSPACE FITS YOUR WORKPLACE

SmartSpace modular systems are the next generation of innovative, portable and temporary workspace solutions from BOXX Modular. The unique “building block” design allows for easy, affordable, flexible deployment—no matter the use.

CUSTOM, FLEXIBLE WORKSPACE SOLUTIONS

SmartSpace modules offer flexible workspace solutions for every job in every environment. Whether you need an urban construction office, a remote housing location, a portable classroom, or a quick response emergency shelter, SmartSpace is the solution.

- Offices, accommodations, emergency shelters
- Specialty applications—medical, security, educational, events and small format retail
- Weatherproofing for extreme environments
- Four designs—single module, double module, four module, stacked module
- Single units can be stacked two high to form a stacked module
- Larger modules can be stacked as high as they are wide—a three-unit base supports a three-level module
- Built with fire- and mold-resistant “green” technology

THE EASIEST PART OF THE JOB

When the clock is ticking on a job, a quick, easy setup can make all the difference. With SmartSpace, custom workspace modules are ready to go as soon as they arrive on site, so you can spend time on what's important—the work.

- Ready for use upon arrival at the site
- A module can be set up by one person in only one hour
- Compact transport
- Steel frame, detachable walls
- Complete set of wall panels can be changed in only four man-hours
- Each unit measures 8.6' x 8.11' x 20'

PORTABLE AFFORDABLE

The costs of setting up and maintaining a job site can add up fast. The portability, efficiency, and durability of SmartSpace modules help keep costs in check, and money in the bank. You can see tremendous time and cost savings simply by craning a SmartSpace unit up as you build. Save time and money by bringing your lunchroom or workspace with you – wherever you go.

- Small-scale portability cuts transportation costs
- Quick, easy deployment cuts labour costs
- Extremely low maintenance costs compared to permanent construction
- Less expensive and smaller footprint than full-construction modules
- “Repair-by-panel” capability dramatically cuts maintenance and replacement costs

WHEN YOU NEED A BUILDING BOXX MODULAR MAKES IT HAPPEN

BOXX Modular rents, leases and sells temporary and permanent modular buildings, including standard buildings ready for immediate delivery and custom-designed solutions.

We work with our customers to design and deliver customized solutions, and provide additional services such as delivery and installation, furniture rentals and other add-ons.

BOXX Modular is a business unit of Black Diamond Group. Black Diamond Group provides workforce accommodation, modular buildings, energy services, and full turnkey lodging and major project solutions including planning and management, logistics, and catering to customers in Canada, the United States and Australia. We serve diverse sectors including oil and gas, mining, power, construction, engineering, military, government, and education. Learn more at www.BlackDiamondGroup.com.
