

LED MOBILE LIGHT TOWER

FOR RENT OR SALE

Black Diamond Energy Services has an available inventory of top of the line LED mobile light towers for rent or sale for your next drilling or completions project site. These diesel fuel Generac light towers are self-contained (oil & coolant), and self-start at dusk and shut down at dawn.

The LED Mobile Light Towers run on a dual RPM system with an eco speed option, allowing you to burn less fuel and save costs. To save you time, light tower trailers come with a dual hitch system allowing for two units to be towed at once. This allows for quicker delivery time from Black Diamond to you.

The light towers also come with a GPS system which tracks and monitors fuel and maintenance levels allowing us to provide unit maintenance only when required and a lower cost of ownership. With a 533 hour runtime, these LED Mobile Light Towers will keep your project moving, on time and on budget.

PRODUCT SPECS: MODEL NUMBER – MLT4060MV0

ENGINE - Mitsubishi L3E

- Liquid cooled diesel engine
- ECOSpeed™ EPA Final Tier 4 compliant multi-speed operation
- Fuel consumption
 - Light only: 0.195 gph (0.738 Lph)
 - Maximum runtime (lights only): 533 hours
- 750 hour service interval
- Wind rating: 65 mph

GENERATOR

- Marathon Electric®, brushless
- +/-1% automatic voltage regulation

ELECTRICAL CONTROLS

- Power Zone Autolight Controller
- Automated dusk to dawn or 7-day scheduler operation
- Three programmable service timers for fuel filter, air filter and oil service
- Individual light fixture control

FLOODLIGHTS

- 172,200 lumens
- 50,000 hours

ELECTRICAL SYSTEM

- (1) 240 VAC 30 Amp twist lock outlet (NEMA L6-30R type)

MAST

- Vertical mast; 23 ft, 5-section with ground adjustable light fixtures
- Dual handle manual winch, electric winch optional

ENCLOSURE

- 63 dB (A) @ 23 ft. – low speed operation

5 YEAR LIMITED WARRANTY ON LED MODULES AND DRIVERS
